Daniel Pitcher
Projects Director
Email: daniel.pitcher@waterhygienecentre.com

Course overview

The Approved Code of Practice (L8) applies to the control of Legionella bacteria in any undertaking involving a work activity and to premises controlled in connection with a trade, business or where water is used or stored eg hot and cold water systems, cooling towers and evaporative condensers.

It is the Responsible Person's duty to ensure their organisation meets the requirements and complies with the legislation and takes account of the Approved Code of Practice. This course will enable you to understand and carry out the responsibilities of the 'named person' as defined in the Health & Safety legislation.

Who should attend?

The training course is of vital interest for all individuals who have been identified as either the Responsible Person or Deputy Responsible Person for controlling the risk of legionnaires' disease within their organisation.

Prerequisites

None.

Objectives

Session one

- Background to Legionella and Legionnaires Disease, including the life cycle of Legionella.

Session two

- Understanding law, regulations and guidance, including COSHH, RIDDOR and the HSE L8 ACOP.
- Case studies, outbreaks and prosecutions.

Session three

- Who is the Responsible Person and what are their duties?
- How to identify the Responsible Person when multiple organisations are involved eg landlord, tenant, Facilities Management company
- The process of systematic risk management including risk audits and risk assessments
- What should the written system contain? How should we prevent and control risk?
- Understand what information needs to be monitored and recorded.

Session four

- Funding and technical issues when managing water hygiene, including scalding and energy saving.
